## PROJECTS

- Airline Performance Dashboard (Capstone Project | Operations Analytics)
  - Designed a dashboard to analyze airline delays, route trends, and KPIs using Power Query and DAX, with ETL steps for cleaning and transforming raw data.
  - Developed a comprehensive performance dashboard analyzing airline delays, route performance, and traffic trends.
  - Built data models using Power Query and designed DAX-based KPIs for delay frequency, cancellation trends, and airport metrics.
  - Delivered visual storytelling through slicers, drill-throughs, and interactive elements aligned with business decision-making.
- Sales Performance Analysis – Global Superstore (Retail Analytics)
  - Applied data cleaning and transformation techniques to build metrics and visualizations tracking profitability, sales trends, and category-wise performance.
- Subsidiary KPI Dashboard – PEW Retail (Executive Reporting)
  - Created a consolidated report for CXO-level stakeholders to monitor subsidiary-wise KPIs.
- Content Analytics Dashboard – Netflix Titles (Media & Entertainment)
  - Developed an interactive dashboard highlighting trends by genre, runtime, and IMDb ratings.
